<b>*New Development unwarded</b>		<b>Prescot North</b>	<b>2,250</b>	<b>-</b>	<b>100%</b>	<b>2,250</b>

\* New development assumes 3 electors per house, based on the fact that most properties are 4 bedrooms giving a total of 2,250 additional residents of voting age, this then discounted by 20% as national statistics would suggest this proportion of the new properties will be filled by existing Prescotians and therefore the 2,250 becomes 1,800. Those 450 are then deducted from the existing wards as that is were they must come from this done on a 2:1 ratio North to South.
